

## November report of Mickūnų kindergarten, Lithuania

### 1. Autumn fruits

Children familiarized with the fruits and vegetables and also the forest fruits of their country. They learnt the recipes to cook homemade sweets and marmalades by autumn fruits.

### 2. Creations by autumn fruits and nuts

Children used their imagination to create something special with the autumn fruits and nuts. Parents helped them.

### 3. Traditional food recipes

<https://twinspace.etwinning.net/62003/pages/page/517512>

Children cooked some traditional autumn food together with their parents. Each country has exchanged five traditional autumn recipes through twinspace which were used for the creation of an e-book whose title is: «Traditional recipes of Europe»

4. Team work of participant schools

We completed the page with list of plants that crops that cultivate in each region and country of all partners.

**Management activities**

At the end of November we have completed and send the monthly report of November to our coordinator. We have completed all project activities for November and we uploaded them and we have done the publication of our school results. We also had communication via chatroom of twinspace, Skype and e mails

<https://twinspace.etwinning.net/62003/pages/page/448487>

We answered to the questionnaire about November partial evaluation of project implementation.

We have received the list of December activities from our coordinator.
